BORDY STARLIGHT

Ref. 81705133

All the birds are already here. There is nothing better than to sit on the terrace or balcony and let a relaxing day drift by!

Especially when the atmosphere is enhanced by impressive lighting. Bördy Starlight creates illuminating moments.

Both of these translucent birds are made of green plastic; two especially adorable dickey birds which land in planters, balcony flower boxes or the garden bed. Conveniently they bring along their own nesting box which is equipped with special comforts; a solar panel on the roof converts energy from the sun into electricity by day, which is saved in the integrated battery. The climate friendly energy source lets this sympathetic bird couple shine after nightfall - thanks to the light sensor.

The soft glimmer and the amusing design of Bördy Starlight make this charming accessory a garden highlight throughout the year. During the day, the bird duo and their birdhouse are very eye-catching.
