**BAMBOO COMB**

Ref. 73031133

**Eco-friendly bamboo comb** : Bamboo is an ecologically clean, rapidly renewable resource. The use of this alternative to wood helps to reduce deforestation worldwide and is also a contribution to environmental and climate protection. The combs of the Olivia Garden Healthy Hair Series are deliberately designed according to this sustainable concept.

**Patented Design** : The patented design of the Olivia Garden Healthy Hair Combs appeals through the combination of latest knowledge in haircare and scalp with the idea of ??environmental sustainability. Good for your hair and good for the environment!

**Stimulating scalp massage** : The teeth of these Olivia Garden combs are carefully rounded. Hair and scalp are efficiently protected when combing. Moreover, these rounded teeth provide a nice scalp massage, thereby increasing the blood circulation, stimulating hair growth and preventing hair loss

## PROFESSIONNAL FINGER BRUSH

Ref. 73028133

**Finger Brush :** A unique hand-shaped design for a hair & scalp massage, on wet or dry hair.

**Blend of boar and nylon bristles :** Wild Boar is a natural product which, for high-quality brushes, represents a quality feature in itself. The 100% pure boar bristles used in our brushes, smoothen the hair during styling and add shine and volume to it. When combined with nylon bristles, the scalp is being gently stimulated.

**100 % Boar Bristles :** Wild Boar is a natural product which, for high-quality brushes, represents a quality feature in itself. The 100% pure boar bristles used in our brushes, smoothen the hair during styling and add shine and volume to it.

**Anti-static and lon charged nylon bristles :** Electrostatic charge of the hair is an eternal problem with hair care. As the bristles are most intensively in contact with the hair, they have a decisive importance in this issue. Anti-static, ionized plastic bristles, as by this Olivia Garden brush, prevent effectively the charge of the hair with static electricity for straight and shiny hair. The cuticle layer of each hair will then be closed which effectively prevents the hair from drying out.
