4 FLY CATCHERS

Ref. 81053133

This Fly Catcher is the proven and environmentally-friendly way of controlling flies.
Made from natural products, it attracts flies by its spiral form and traps them on its sticky surface.

Instructions for use:
1. Warm tube in hands to room temperature. Remove top, retain pin and pull out the Fly Catcher with ribbon in twirling motion. 2. Hang up the fly catcher using the pin provided. One fly catcher is sufficient for a room of 8-10 m² and is effective for approximately 8 weeks. Hang away from sunshine and draughts and out of the reach of children and pets (the product is extremely sticky). After use wrap the fly catcher in paper and dispose of it with normal household waste. Glue stains can be removed with vegetable oil.

ANTS TABLET ECO "WINN'S"

Ref. 81016104

Winn's Eco Ant Tablet contains no insecticides and is the only product of its kind.
It is impregnated with a substance composed entirely of vegetable oils.
Ants use pheromones to send messages to each other and leave paths. The smells given off by the tablet are unknown to the ants and block their ability to pick up their natural pheromones, and this disturbs their behaviour. As a result,the ants cannot find their way back to their nest and are forced to look somewhere else for food.
The mixture is contained in a recyclable polyethylene tablet.
Winn’s Eco Ant Tablet does not contain any toxic substances, biocides, traps, repellents or products harmful to the environment.
Contains <5% Eco-mixture of vegetable oils
Instructions for use: Remove the tablet from its packaging and place it in the path of the ants or on the nest. It should
