CATGRASS SEEDS KIT

Ref. 81325133

The kit includes :
- 1 substrate tray
- 1 packet of catgrass seeds (Hordeum vulgare)

Your cat swallows a lot of hair while cleaning itself, which eventually forms an indigestible ball in its stomach. By eating fresh grass or the plants in your home, these hair balls can be eliminated naturally. Help nature do its work by giving your cat Buzzy cat grass and therefore avoiding intestinal problems.Mix the seeds with the substrate and place the black tray in the packaging that will serve as a greenhouse. Place the greenhouse on a window sill and keep at room temperature (approx. 20°C). Pour a glass of tepid water over the seeds, then water the tray regularly over the next few days. Take care not to overwater to avoid mould. Remove the cover as soon as the seeds have germinated. After about a week, the grass will have grown sufficiently for your cat to begin
